

BOŽIČNO DRVCE

Pripremi:

zeleni i zlatni kolaž papir,
šablone bora i zvjezdice,
olovku, škare, ljepilo
čačkalicu ili šibicu

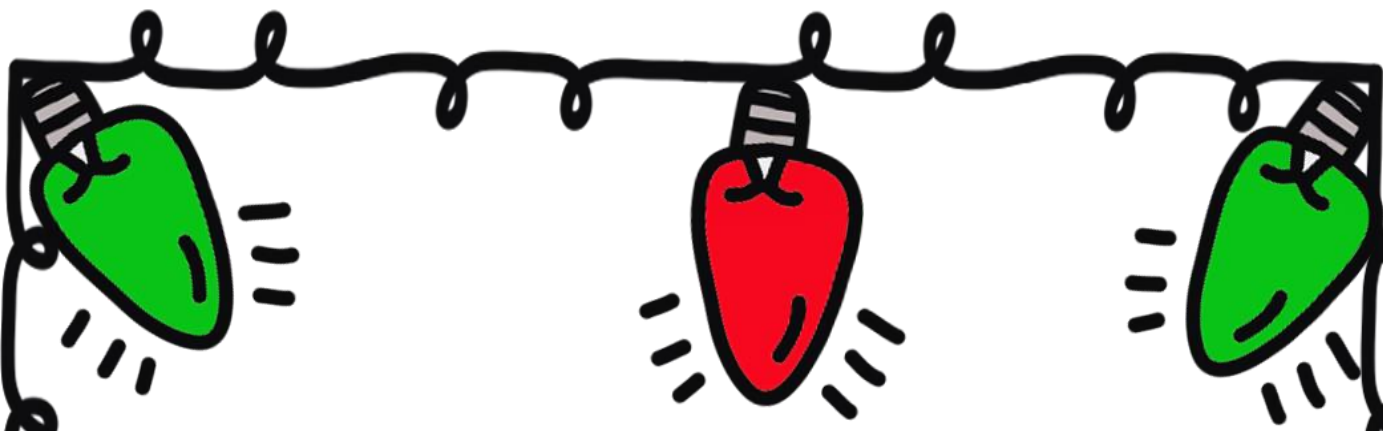

Pomoću šablone koju si dobio u školi, izreži 6 borova iz zelenog kolaža.

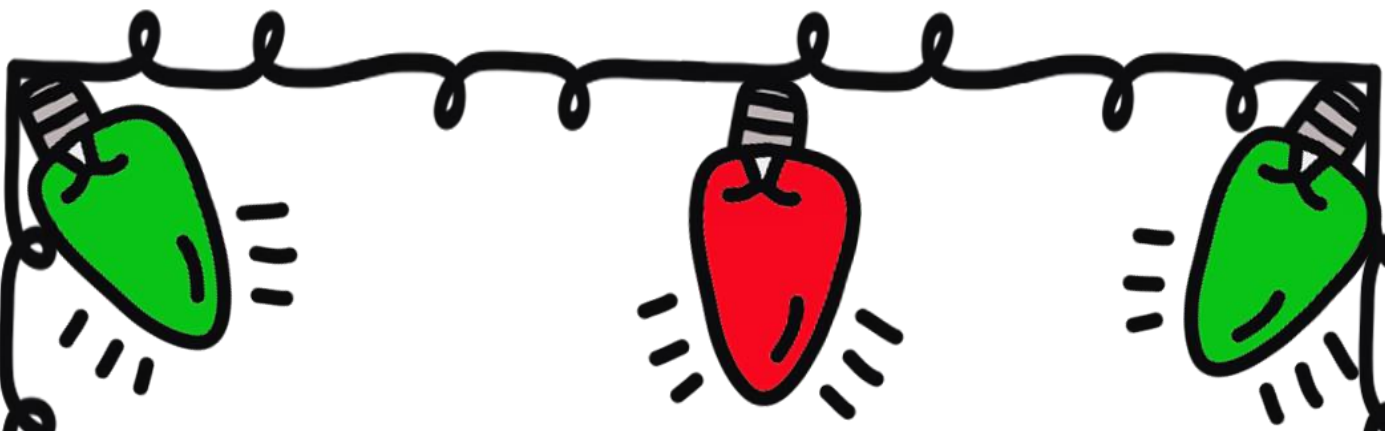

Iz zlatnog kolaže izreži dvije
zvjezdice pomoću šablone.

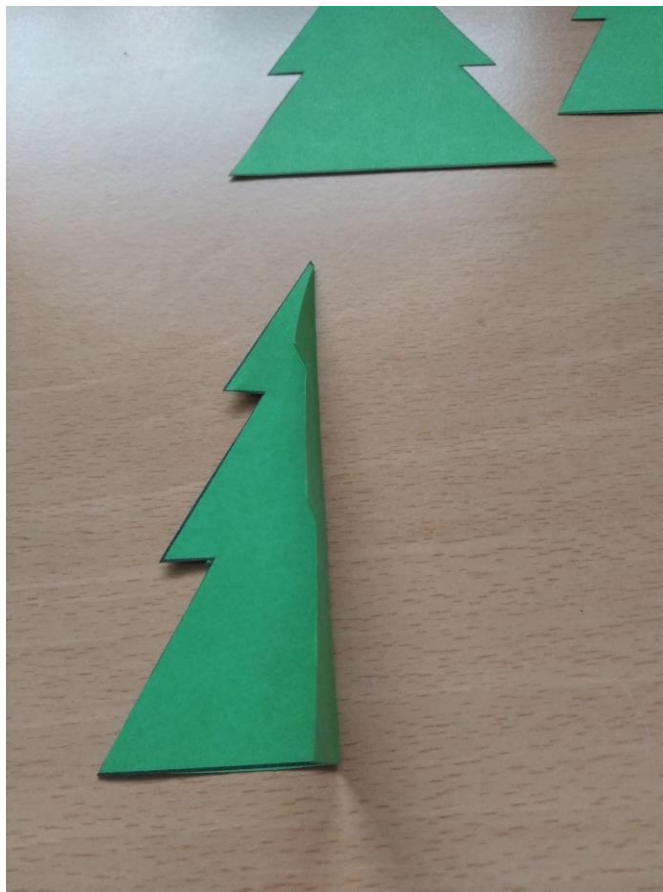

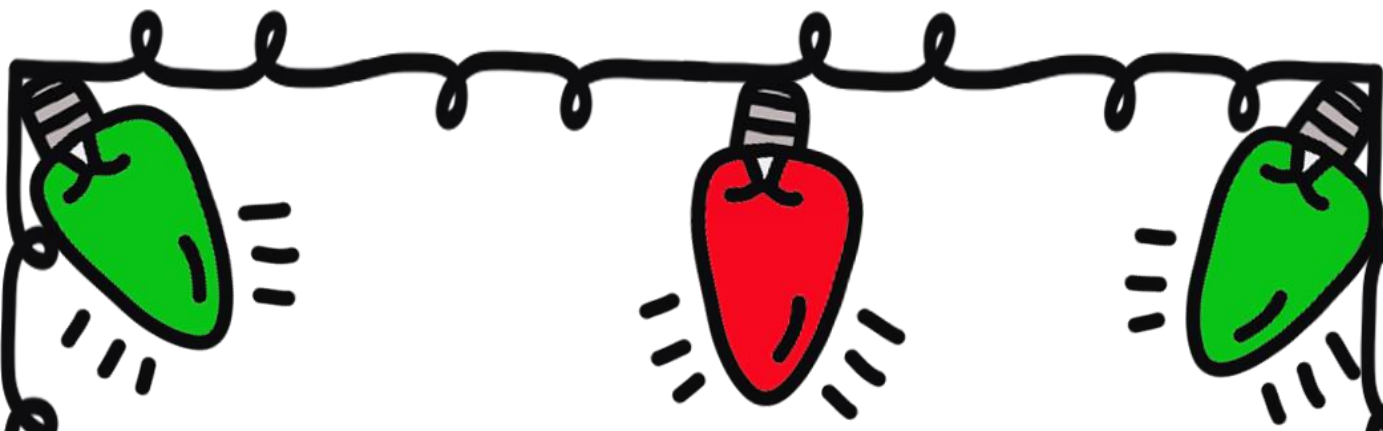

Sad imaš 6 borova i 2
zvjezdice.

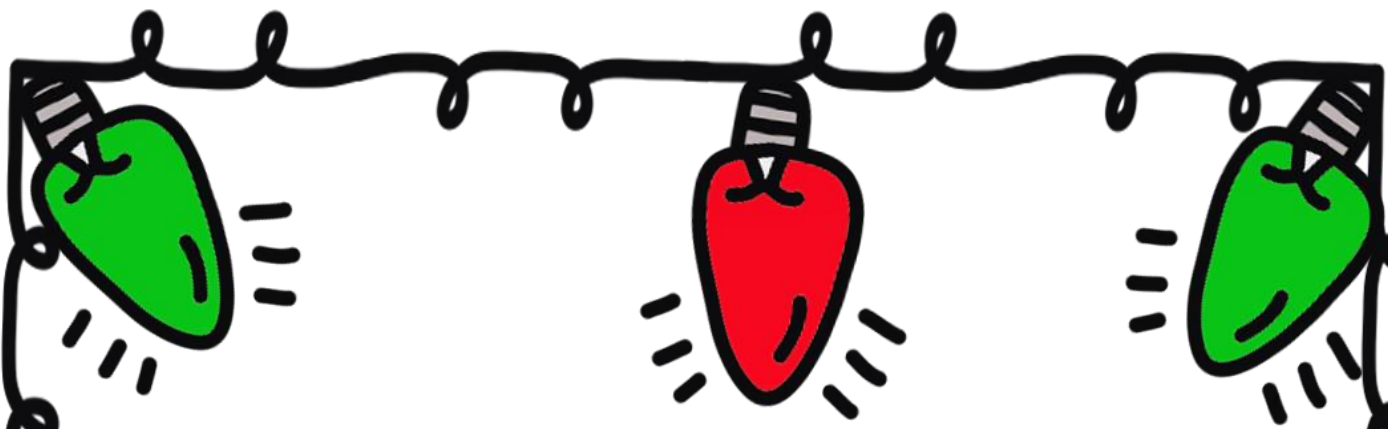

Svaki bor presavij po dužini.

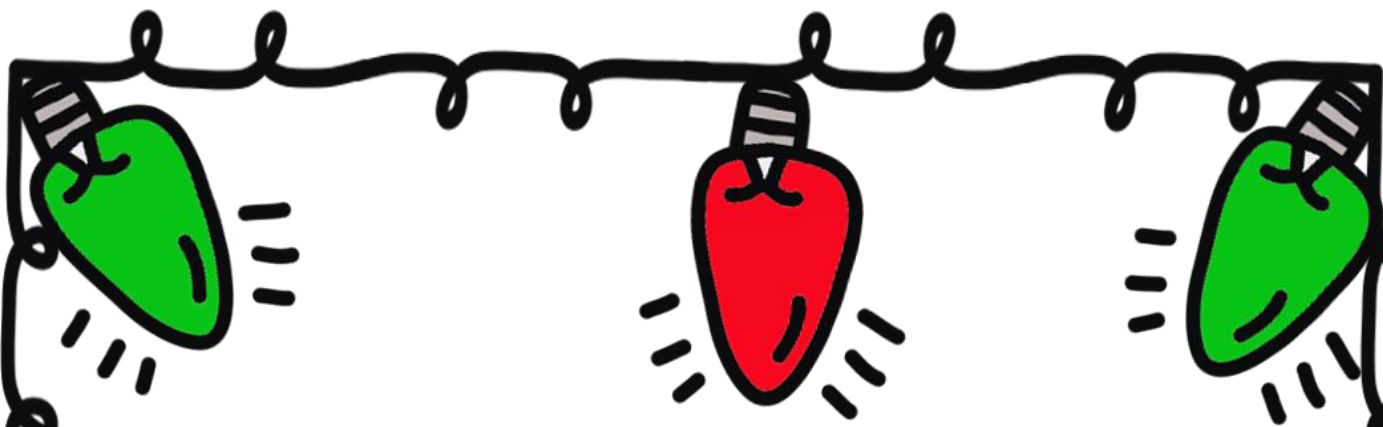

Radi uredno.

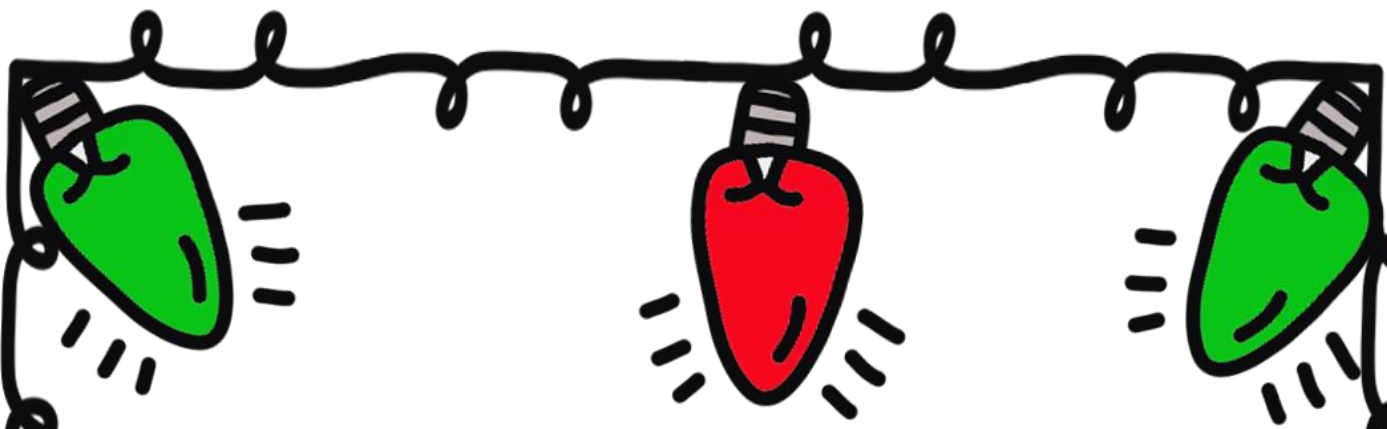

Jednu polovinu bora namaži
ljepilom.

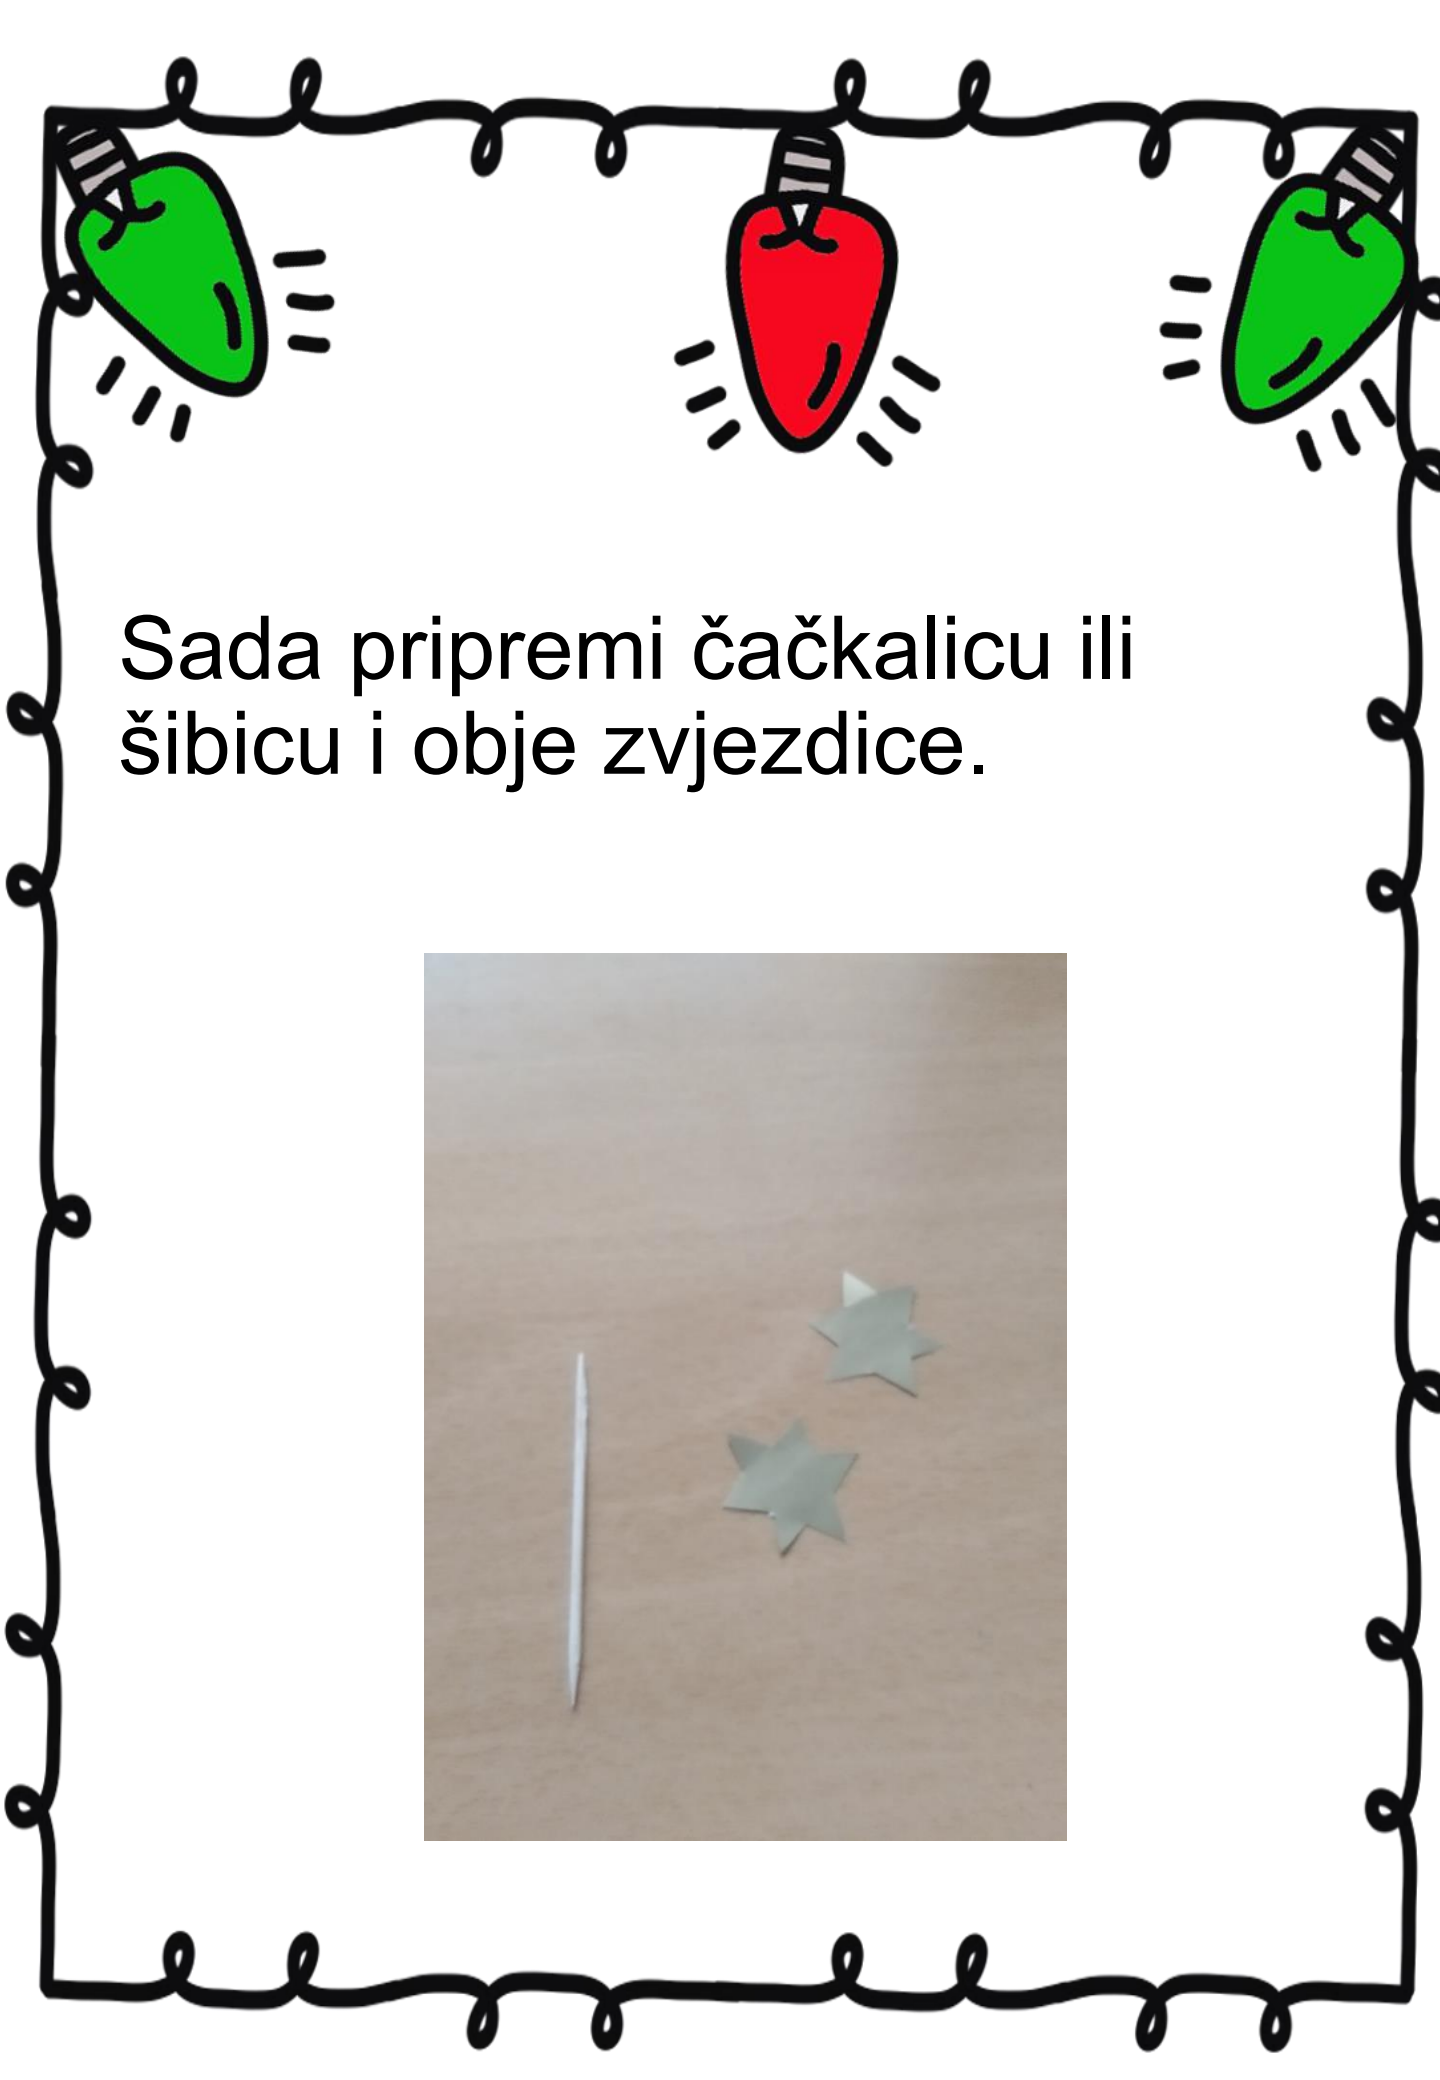

Na nju nalijepi drugi bor.

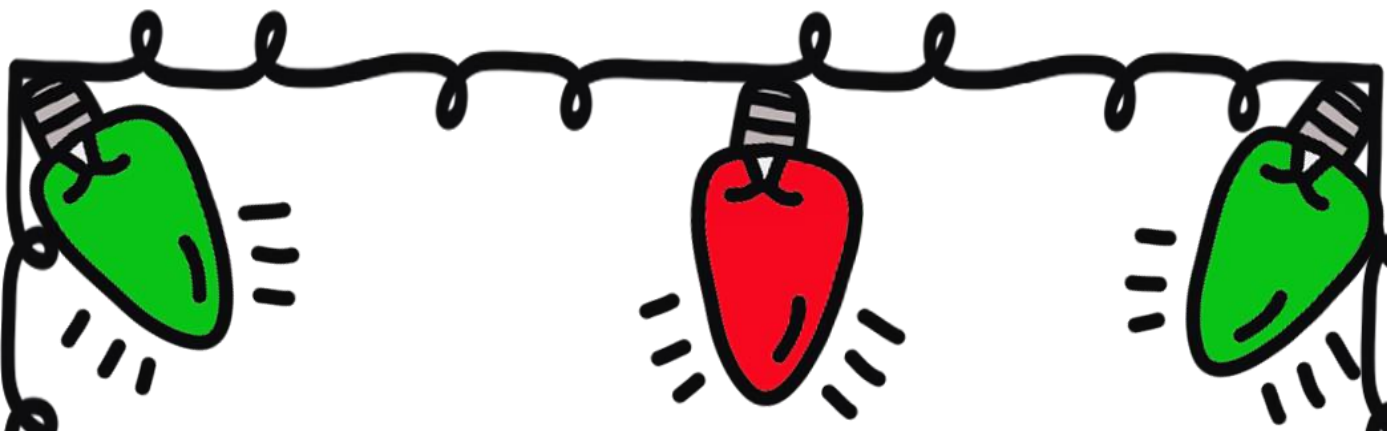

Nastavi tako sa svih 6 borova.

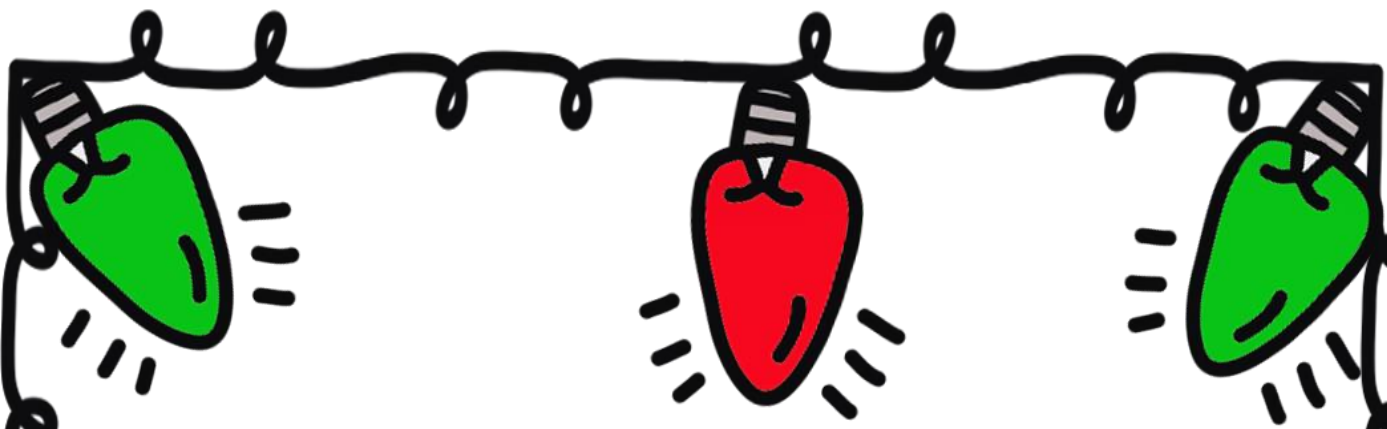

Sada pripremi čačkalicu ili šibicu i obje zvjezdice.

Nalijepi ih na vrh čačkalice.

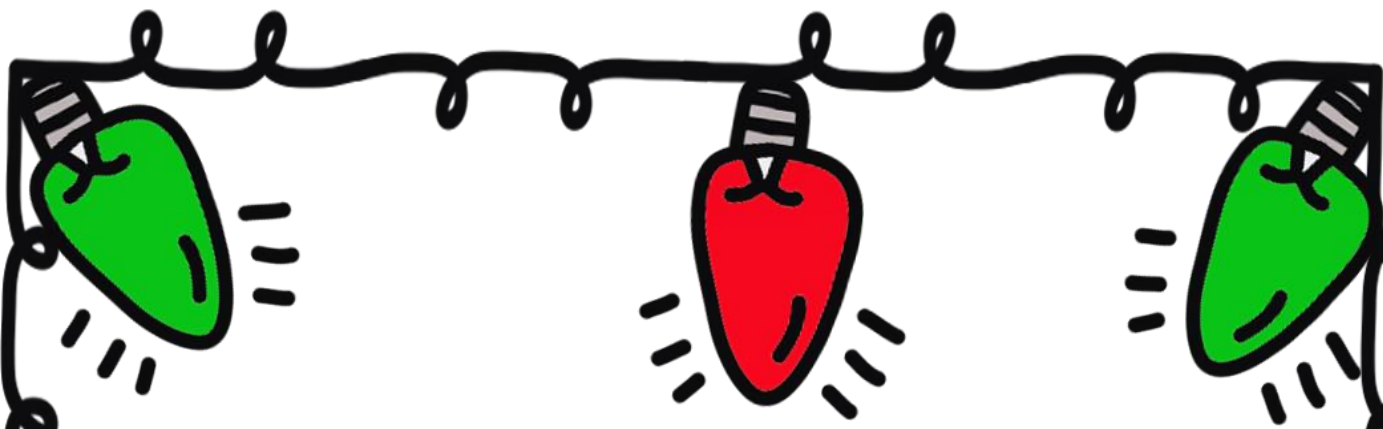

Pazi da se obje zvjezdice
uredno preklapaju.

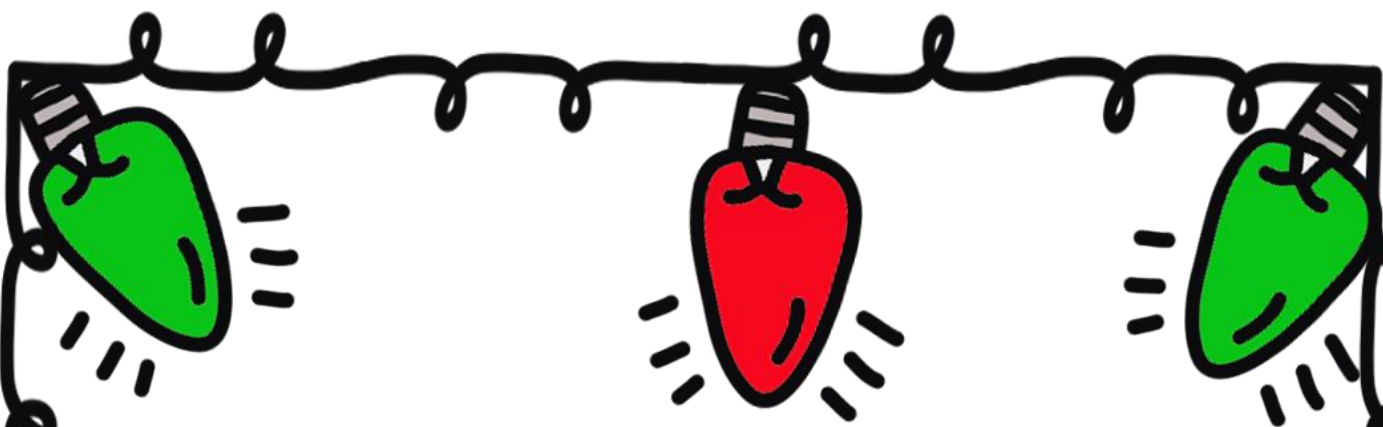

Čačkalicu sa zvjezdicom
umetni u nalijepljene borove.

Zalijepi oba kraja zelenog papira.

Ovako izgleda gotovo drvce!
Možeš ga ukrasiti kako želiš.
