

Australian Animals CLIL Unit

Did you know that the emu, the world's third largest bird, can reach running speeds up to 50 km/hr but can't fly?! Or that kangaroos have very strong legs but are unable to walk backwards?! And that in Australia, we have birds that actually laugh!?

These are just some of the many fascinating facts your students will learn with a visit from The Language Toolbox. The Australian Animals CLIL workshop educates students about many curious creatures from the Land Down Under, in a highly engaging, interactive and magical way! The workshops are taught in English and, in accordance with the CLIL teaching methodology, lessons are easily modified to suit the learning needs of the students. Language learning is brought to life and made real!

If you would like to arrange a workshop in your school, please contact Tilka today.

"Meeting Tilka has been one of the most interesting occasions of my working life! We had CLIL lessons about Australian Animals and we had a lot of fun!"

English Teacher,
Italian Elementary School

"How amazing and how very moving. I am in awe of your work with these children Tilka!"

Mem Fox
Australia's most highly regarded picture-book author

"Thank-you Miss Tilka. I liked having you as my teacher - it was always colourful!"

Former Year One student, Australia.

Tilka Brown

Languages Education Consultant

Tilka Brown is an experienced primary school teacher and a passionate advocate for quality language education programs.

She has taught in many schools across Victoria, Australia, and has worked extensively with students, teachers and principals in primary and secondary schools throughout Italy. She has presented her educational philosophies at several international language conferences and seeks to promote the value and importance of quality language programs, such as CLIL programs, with educators everywhere.

Tilka believes that all children deserve to see and experience the MAGIC that comes with learning an additional language!
