

## EXCITING NEWS

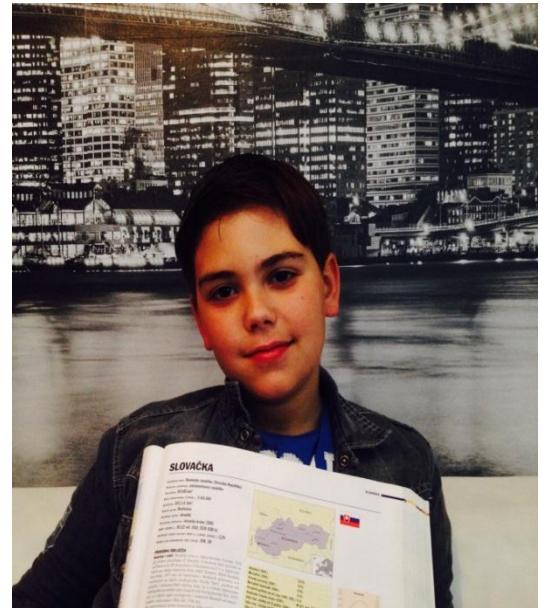

I often go to see my Mum at work. One day, she told me that my teacher phoned her. There is a possibility for me to go to Slovakia. Everybody in my family was excited. All my friends.

I have good marks in all subjects, and I like English! I always work hard. Still it was a surprise! I could not believe it!

I was confused!

How will it be? Will they give me a test?  
Will I do well?

The teacher told me that Comenius team needs good actors. I still can't believe it. Acting is easy and fun, like playing with my friends! I am very happy. I will be in a school play with children from other partner schools!

Did you know that one man from Slovakia invented a flying car? He likes the Croatian coast so much that he wanted to come faster to our beautiful islands during summer! I saw that on TV. That is so cool!
