

Dinosaur Provincial Park Numerous dinosaur fossils – some up to 60 million years old – have been discovered at this excavation site on the Red Deer River.

Riding Mountain National Park The national park is home to many wild animals, including wolves, lynxes, bears, elk, and buffalo.

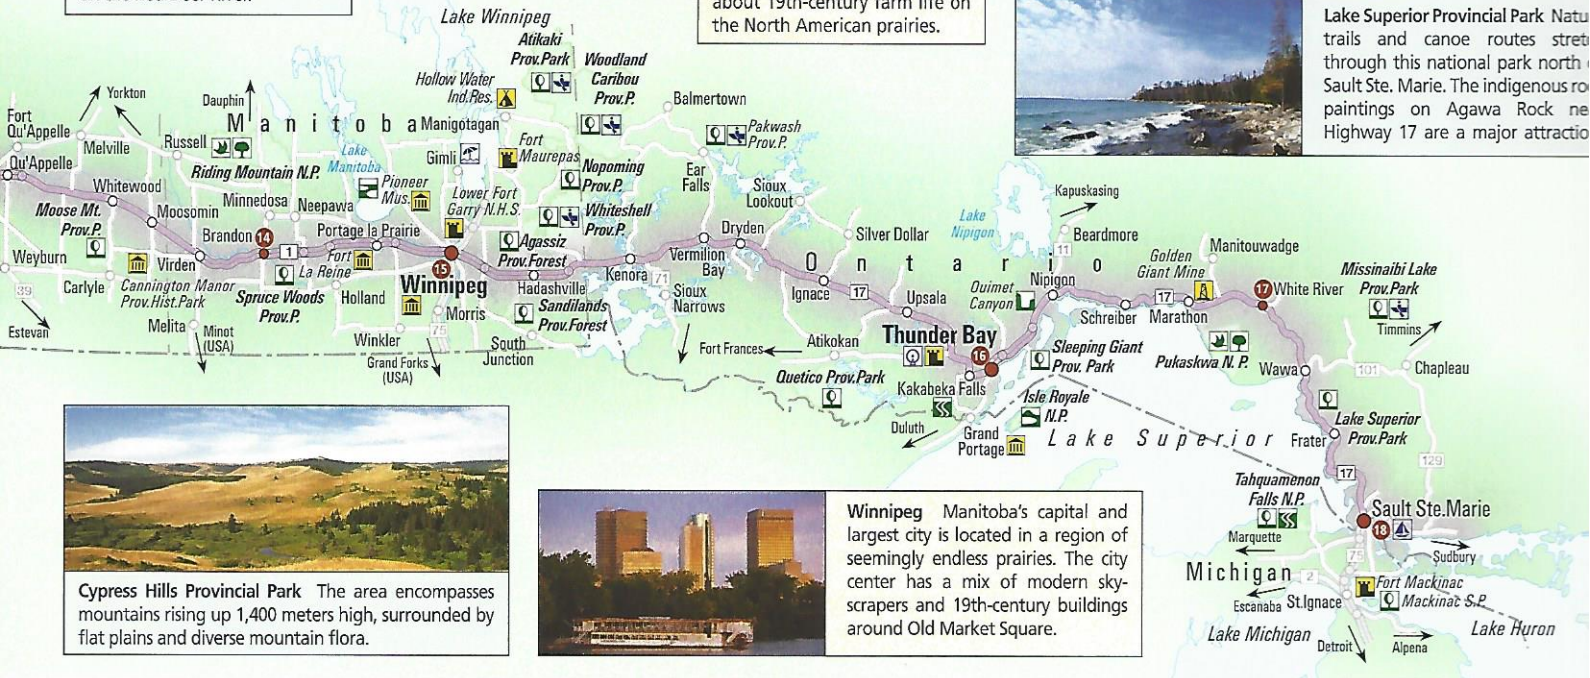

Fort la Reine This open-air museum village teaches visitors about 19th-century farm life on the North American prairies.

Quetico Provincial Park The park near Lake Superior and the United States Canada border encompasses 1,500 kilometers of canoe routes, including several historic routes once used by fur traders and early settlers.

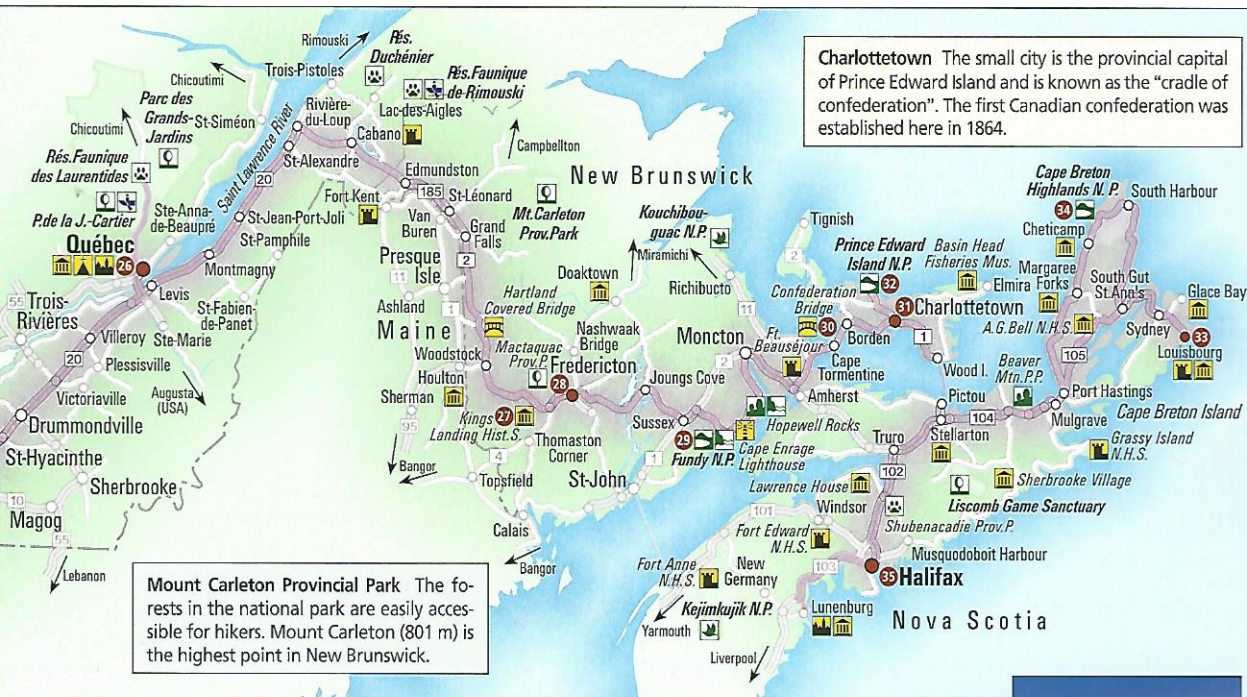

Lake Superior Provincial Park Natural trails and canoe routes stretch through this national park north of Sault Ste. Marie. The indigenous rock paintings on Agawa Rock near Highway 17 are a major attraction.

Cypress Hills Provincial Park The area encompasses mountains rising up 1,400 meters high, surrounded by flat plains and diverse mountain flora.

Winnipeg Manitoba's capital and largest city is located in a region of seemingly endless prairies. The city center has a mix of modern skyscrapers and 19th-century buildings around Old Market Square.

Charlottetown The small city is the provincial capital of Prince Edward Island and is known as the "cradle of confederation". The first Canadian confederation was established here in 1864.

Cape Breton Highlands National Park Elk, beavers, and more than 250 bird species inhabit the 950-km² park.

Hartland Covered Bridge The bridge over the St. John River was built in 1901 and is the world's longest covered bridge with a total length of 390 meters.
